Real Conversations, Real Coaching, Real Results

LIFELIKE & ADAPTIVE

- Simulate realistic conversations across any scenario, from sales pitches and customer escalations to performance reviews and board presentations.
- AI listens, responds, and adapts in real time, delivering a natural, contextual experience.

REAL TIME COACHING

- Instant insights on pacing, word choice, active listening, and whether learners met objectives.
- Contextual prompts during sessions to guide the learner toward best practices.

MANAGER INSIGHTS

- Dashboards track progress by individual and team.
- Identify skill gaps and recommend targeted training.

SIMPLE SETUP

- Upload your own training materials—scripts, call recordings, meeting notes, videos.
- Seamlessly integrates with your LMS or learning ecosystem.
- Train teams in 25+ languages!
