

AI-Proctoring & Fraud Management

Confidence from the initial screen to the final interview, with Glider AI you know the candidate you interview is the person you hire and always the best person for the job.

50+ checkpoints guarantee candidate skill, fit, and integrity

Glider AI mitigates fraud before, during, and after assessments and interviews helping you proactively address questionable behavior

AI-proctoring is available during assessments and interviews

- Auto-notification of fraudulent activities
- 360-degree monitoring of the interview
- Detect facial mismatch
- Assess audio inconsistencies
- Identify impersonators
- Monitor lip sync and eye movement
