

ID Verify

Ensure the authenticity of a candidate's identity throughout the recruitment process, from the initial screen to the final hire.

Top Product Features

Mitigate your risk of identity fraud, especially during remote and high-volume hiring, while adhering to regulations to help prevent legal risks.

DASHBOARD

View candidate profiles and verification status. Search and filter functionality for streamlined candidate management.

AUTOMATED IMAGE MATCHING

Advanced algorithms compare photos and ID proofs to identify matches with accuracy thresholds (e.g., 95%-100%).

PROFILE MANAGEMENT

Add or edit candidate profiles and upload supplementary photos or IDs for verification.

MATCHING LOGIC

Sophisticated AI quickly identifies mismatches unknown to the human eye.

ALERTS

Initiate verification manually or rely on automated triggers based on system updates.

REPORTING

See history logs, mismatches, and decisions. Export reports for compliance and auditing.

How it Works:

INTERVIEWS

Prompt candidates to validate likeness with live photos and ID.

ASSESSMENTS

Trigger verifications when new photos or IDs are uploaded.

REVIEWS

View profiles, match statuses, and initiate verifications.
