

Automated Phone Interviews

Enable recruiters to conduct verbal assessments with automated phone calls that are fair, fast, and accurate.

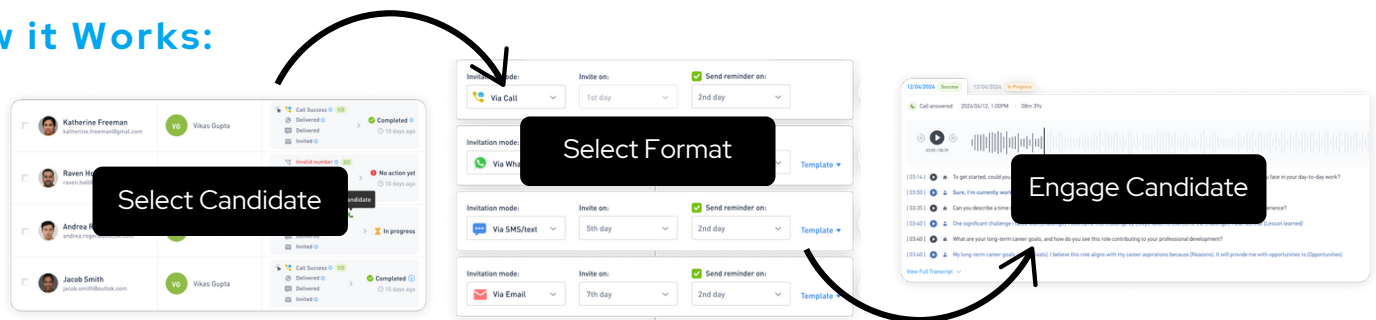

Efficiency & Speed: Automate screening and save your recruiters time by quickly identifying top candidates for further evaluation with pre-vetted questions.

Objective and Data-Driven: Get unbiased evaluations of communication skills, enabling more informed hiring decisions.

Support for High-Volume Hiring: Manage high-volume, making it ideal for bulk recruitment or high-demand hiring events.

How it Works:

Candidates respond to pre-configured questions, then AI records, transcribes and evaluates responses for clarity, grammar, fluency, and relevance.

Top Product Features

AUTOMATED CALL SCHEDULING

Remove scheduling headaches; Glider then schedules and automates the screening interview.

REAL-TIME EVALUATION + INSIGHTS

Interview transcripts with auto-generated scores with detailed insights on how candidates meet skill requirements.

CONFIGURABLE QUESTION SETS

Role-specific and customizable questions for accurate skill assessment.

INTEGRATED WORKFLOWS

Support multiple delivery modes like SMS, WhatsApp, etc., and integrates with your ATS.
