

Interview Panel Manager with Auto Scheduling

Eliminate manual inefficiencies, automate panel creation, scheduling, and communication, ensuring the right interview, the right topic, and the right person for every interview!

HOW IT WORKS: Recruiter uploads list of approved interviewers. Glider AI schedules and matches the interviewer with the candidate based on interview need.

Top Product Features

PANEL CREATION

Auto-create dynamic panels of interviewers based on job-specific criteria such as skill, geography, and more.

AVAILABILITY MANAGEMENT

Allows for bulk uploads for interviewers and respective times for interview availability, syncing them with the interview panels.

SKILL VALIDATION + MATCHING

Maps panel members to open interviews based on expertise, job level, stage, etc.

UPDATES & NOTIFICATIONS

Sends automated alerts for slot expirations and confirmations to prevent delays.

CANDIDATE SCHEDULING

Automated emails to candidates where they can select preferred slots.

SCHEDULING

Automated and manual scheduling to ensure flexibility in getting additional stakeholders or interviews when needed.
