

Skill Intelligence and Competency Management

Make skills actionable! Assess, develop, and manage skills across your org to align with company goals for maximum impact.

Top Product Features

SKILLS REPOSITORY

Manage and organize skills in a centralized repository, and understand the relationships between employee skills and skills for the job.

SKILLS PROFILE & DASHBOARD

View skill composition from a company level to team to individual skill proficiency to determine skill strengths, skill gaps, and development opportunities.

SKILLS/ROLE MAPPING

Understand the skill relationship between specific roles and employees and quickly link assessments to validate skill proficiency and skill development.

SKILLS DEVELOPMENT PLANS

Employees self-assess and participate in skill development and competency reviews, creating actionable skill improvement plans while engaging teams with new skills.

SKILL ALERTS

Notify stakeholders of review cycles, and completed skill evaluations, to ensure action on skill gaps and learning paths.

SKILLS REPORTING

Access detailed reports on skill gaps, skill acquisition rates, and employee job readiness based on skill proficiency to support planning.
